Product Knowledge Class

**PURPOSE:** To introduce the COLORLY Hair Color System to new and potential new users. Create excitement through color. To instruct in a brief yet thorough description of IT&LY HAIRFASHION products, programs, and company philosophy in a fun environment.

**GOAL:** To generate and stimulate an environment of creativity using the IT&LY HAIRFASHION family of products. Gain a working knowledge of COLORLY Advanced Formula, along with generating an excitement for our support hair color products, including *delyTON, lyCOLOR, VIVLY* etc.

**Requirements:**
- Have a solid interest to purchase IT&LY HAIRFASHION products and /or have recently purchased a Done Deal.
- The use of a Salon or another venue with access to color application and removal.
- White board or easel

**Tools:**
- Small selection of all IT&LY HAIRFASHION products for display and working product.
- Tear sheets, 4-pager, Quarterly deals, sales, etc.
- All Swatch charts, bowls, brushes, beakers, etc.
- One–two models (Simple application)
- Four-hour class (Two hour dialog, two hour application)
Begin seminar:

- Introduce yourself
- Thank salon, distributor, and any other pertinent figures for hosting.
- Have salon stylists introduce themselves
- Ask about their color knowledge, COLORLY A.F. usage etc.
- Start with something to grab their attention, joke, story etc.

Change is hard; rare is it that a person gladly looks forward to change in their life style, habits, love, or hair color! Change means we have to participate, maybe get a little uncomfortable, or maybe even think! Change usually means growth, and growth can be exciting and stimulating, even a little uncomfortable. Who wants to be left standing on the sidelines, the brain needs stimulating until the day we curl up our toes. Why not change color lines? Why not stimulate our craniums? Live a little, learn, have fun, be creative, and love!

Where it all began: COMPANY INFORMATION AND FOUNDATION

- Founded, Milan Italy in 1987 by experienced Chemists, Artists, and Administrators.
- Dedicated to the Advancement and Development of Professional Hair Color Products and Accessories.

Product Knowledge Class

At this time take a break. Prep your model. Discuss her desires, your considerations, and prep your materials. When break is over, proceed to show how to formulate with the 4-pager, and the use of the swatch chart in determining the natural base. Apply color and process. Have assistants remove application and style model out.

During processing, review the support products and ACP styling line.

A. ADVANCED SHAMPOO
   - Reduces alkalinity
   - Removes excess color
   - Stabilizes color
   - Uva and uvb Filters to reduce color fade

B. REVIVOR
